## Colonies Word Scramble

When George Washington was inaugurated President of the United States on April 30, 1789, the country was much smaller than it is today. There were only 13 states and fewer than 4 million people. Today there are 50 states and over 300 million people.

Can you unscramble the names of the original 13 states? Draw a line from each state name to its correct location on the map. Some of the states have changed their boundaries since Washington's time!
